JOHN W. HAYS, M. D., Albion, Ind.  
JAS. N. CHAMBERLAIN, M. D., Waterloo, Ind.  
E. G. WHITE, M. D., Lagrange, Ind.  
C. T. MELSHIEMER, M. D., Bluffton, Ind.  
D. H. BRINKERHOFF, M. D., Fremont, O.

## FACULTY.

---

- R. W. THRIFT, M. D., Lima, Ohio.  
Emeritus Professor of Puerperal Diseases and Diseases of Children.
- JAMES S. GREGG, M. D., Treasurer, 176 E. Washington Street,  
Professor of Principles and Practice of Surgery.
- CHRISTIAN B. STEMEN, M. D., Dean, 25 Broadway.  
Professor of Surgery and Clinical Surgery.
- A. E. VAN BUSKIRK, M. D., 416 Calhoun Street,  
Professor of Theoretical, Practical and Clinical Medicine.
- JOSEPH L. GILBERT, M. D., Kendallville,  
Professor of Theory and Practice of Medicine.
- I. ELLIS LYONS, M. D., Huntington, Ind.,  
Professor of Obstetrics.
- MILES F. PORTER, A. M., M. D., 106 Fairfield Avenue,  
Professor of Genito-Urinary Surgery and Surgical Anatomy.
- HOWARD McCULLOUGH, M. D., 84 Calhoun Street,  
Professor of Physiology and Clinical Medicine.
- GEORGE B. STEMEN, M. D.,  
ANDREW J. BOSWELL, M. D., Lewis Street.  
Professors of Materia Medica and Therapeutics.
- WALTER W. BARNETT, M. D., 416 Calhoun Street,  
Professor of Descriptive Anatomy and Demonstrator of Anatomy.
- GEORGE MURPHY, M. D., Leo, Ind.,  
Professor of Chemistry and Toxicology.
- 

## SPECIAL DEPARTMENTS.

- WILLIAM P. WHERY, M. D., M. R. C. P., 61 Madison Street,  
Professor of the Diseases of Women.
- NORMAN TEAL, M. D., Kendallville, Ind.,  
Professor of Orthopœdic Surgery.
- GEORGE W. McCASKEY, A. M., M. D., 107 Main Street,  
Professor of Diseases of Throat and Lungs and Electro-Therapeutics.
- R. F. BLOUNT, A. M., M. D., Wabash, Ind.  
Professor of Puerperal Diseases and Diseases of Children.
- KENT K. WHEELOCK, M. D., Secretary, 187 Griffith Street,  
Professor of Diseases of the Eye and Ear.
- FREDERICK S. C. GRAYSTON, A. M., M. D., Huntington, Ind.,  
Professor of Pathology.
- WILLIAM SCOTT, M. D., Kokomo, Ind.,  
Professor of Rectal Diseases.
- A. J. SMITH, M. D., Wabash, Ind.,  
Professor of Medical Jurisprudence and Hygiene.
- H. D. WOOD, A. M., M. D., Angola, Ind.  
Professor of Abdominal Surgery.
- GEORGE C. STEMEN, M. D., 25 Broadway.  
Assistant to the Chair of Chemistry.

## ANNOUNCEMENT.

The Ninth Annual session of the Fort Wayne College of Medicine will begin on Tuesday, Sept. 29th, 1887, and will close March 13th, 1888, there being an interval of about ten days during the holidays. It is now the only Medical School in Northern Indiana.

Past experience has demonstrated the fact that Fort Wayne has every facility for successful medical instruction. The city has a population of 40,000 and is the centre for five railroads, of which the Professors of Surgery are the official surgeons of two, and the patients of the Pennsylvania and Wabash systems of railroads are cared for at the City and St. Joseph Hospitals. All the clinical material of the free wards of both hospitals are at the disposal of the Professors of Clinical Medicine and Surgery. This is necessarily abundant in a city the size of Fort Wayne and besides this each clinical instructor brings as many of his private cases before the class as are of interest in the demonstration of lectures.

---

## THE CHEMICAL LABORATORY.

This department will be managed so as to afford a complete practical knowledge of both Medical Chemistry and Microscopical Urinalysis.

## ST. JOSEPH HOSPITAL.

This most excellent institution is situated at the corner of Broadway and Main streets. It has a large, commodious lecture-room, and is under complete supervision. It is supported by a large territory of country and its usefulness is appreciated by the people.

---

## THE CITY HOSPITAL.

This beautiful institution is situated at the corner of Washington and Barr streets, two squares from the center of the city. It is very accessible for ambulance cases, and is often the scene of capital operations by the surgical staff. Clinics will be held regularly at both the City and St. Joseph Hospitals.

---

## CLINICS.

The surgical and medical clinics are not surpassed for variety and usefulness by any institution in the west. With abundant material for the illustration of every department of medicine and surgery, is combined the close observation and personal inspection of each and every case. Each student is made to feel a personal interest and responsibility in every case and can follow the progress of each case from day to day and note the immediate effects of treatment. Auscultation and percussion are taught by the Professors of Theory and Practice both didactically and clinically, thus affording facilities which are offered at other schools by special, private and expensive courses only. A special course of practical instruction in obstetrics will be afforded the members of the graduating class and each member will have an opportunity to attend at least one case of confinement during the session.

---

## OPHTHALMOLOGY AND OTOTOLOGY.

Instructions in the use of Ophthalmoscope and Otoscope will be given, free of charge, to every member of the class, who will provide himself with the necessary instruments.

## COURSE OF STUDY.

The demand of the profession and of the public is for the elevation of the standard of medical education. The Fort Wayne College of Medicine, recognizing the justice of this demand, has instituted a graded course, which however, for the present, is optional with the student.

This course of study requires attendance during three regular terms.

The first year comprises the study of Anatomy (with dissections) Chemistry, Practical Chemistry and Physiology.

The second year comprises Surgical Anatomy, Materia Medica and Therapeutics, Pathology, Histology and the use of the Microscope, Clinical Medicine and Surgery at the Hospital, and Physical Diagnosis.

The third year comprises Practice of Medicine and Surgery, Obstetrics, Gynæcology, Diseases of Children, Materia Medica and Therapeutics, Medical and Surgical Clinics at the Hospital, and the Application of Surgical Appliances and Bandages.

The faculty strongly recommends this course for the adoption of students, yet for the present they are free to choose whether they will follow this or the usual course.

---

## FEMALE STUDENTS ADMITTED.

 The Faculty desires to call special attention to the fact that female students are admitted to study in this school upon the same basis and with the same privileges in every respect as male students; and each class hitherto has included ladies whose standing has been equal to that of any of the gentlemen.

## REQUISITES FOR THE DEGREE OF DOCTOR OF MEDICINE.

1. The candidate must be twenty-one years of age, and of a good moral character.

2. Must file a satisfactory certificate of having studied medicine for at least three years under a regular graduate or licentiate and practitioner of medicine, in good standing. No candidate shall be eligible for final examination for graduation unless his or her term of three years' study shall have been completed, or shall expire at a date not later than three months after the close of the final examinations.

3. Must file satisfactory evidence that, during the above mentioned three years, he or she has matriculated at some regular college or colleges for two regular sessions, and in the course of the same has attended two full courses of instruction, the latter of which must have been in this institution. No two consecutive courses of instruction shall be held as satisfying the above requirements, unless the time between the beginning of the first course and the end of the second course is greater than fifteen months.

4. Must have dissected at least one session, and have likewise received practical instruction in Chemistry, in this or some other medical school, and must also have attended hospital instructions, both of which must be shown by sufficient evidence.

5. The candidate must have passed personal examinations by the Faculty in all the branches of medicine taught in this college. Each candidate for graduation will be examined by the different teachers at the end of every month, and the average of the monthly examinations will influence his final standing.

6. Each candidate must have paid in full all College dues, including the graduation fee.

The degree will not be conferred upon any candidate who absents himself from the Public Commencement without permission.

Premature examinations will be granted under certain circumstances, but the candidate must give good and sufficient reasons for requesting the same.

## FEES.

Matriculation, . . . . .	\$ 5 00
Professors' Tickets, . . . . .	40 00
"    "    (single), . . . . .	5 00
Dissecting " . . . . .	5 00
Laboratory " . . . . .	5 00
Hospital " . . . . .	5 00
Graduation Fee, . . . . .	25 00

Persons desiring to take instructions in practical anatomy and chemistry are permitted to do so without the payment of the matriculation fee.

1. All fees shall be paid to the Secretary of the Faculty, and upon presentation of the Secretary's General Ticket to the members of the Faculty, the holder shall be entitled to the tickets paid for.

2. No ticket or other certificate of attendance upon the college exercises shall be issued to any student until the dues for the same shall have been fully paid, nor until the end of the term.

3. The established fees for the exercises of the regular session, except the matriculation fee, graduation fee, fee for dissection and hospital ticket, will be reduced one-half to graduates of other regular colleges of less than three years' standing, and to undergraduates of the same who have attended two full courses of instruction in the regular session.

4. The same fees will be remitted altogether to alumni of this College to graduates of other regular medical colleges of three years' standing, the three years dating from the time of graduation and ending at the close of the session for which tickets are given; to under-graduates who have already attended two full courses of instruction of the regular sessions, the latter of which, at least, must have been in this College, and to theological students when not candidates for diplomas.

5. The same fees may be reduced or remitted to deserving indigent students, to a number not exceeding five per cent. of the matriculates at the previous regular session of the college.

At the end of the term, certificates of attendance are issued to non-graduates, in which the exact amount of attendance during the term is certified to by the Dean and the Secretary, over the seal of the College.

## PRELIMINARY REQUIREMENTS.

Each student before matriculation must present satisfactory evidence, on examination or otherwise, of proficiency in the fundamental branches of an English education. Graduation from a college, academy or high school, or a license to teach in the public schools, will be evidence of such proficiency.

---

## THE NEW COLLEGE BUILDING.

The college has removed to the large three-story brick block, on the west side of Barr Street, between Berry and Main streets, two squares from the Court House. This building furnishes twice as much space as the one formerly occupied by the college. It has been fitted up in a superior manner and is spacious and convenient in every respect.

---

## BOARDING AND LODGING.

There are many excellent boarding houses in the immediate vicinity of the college. On reaching the city students should go at once to the office of the Secretary, at No. 94 Calhoun St., over 'Thieme & Gross' drug store, where they will be furnished with directions for boarding houses. The rate per week varies, of course, with the accommodations, and can be found at from three and one-half dollars upward. In many instances heretofore, students have gone even below this figure.

Students, when writing for information are requested to address Kent K. Wheelock, M. D., Fort Wayne, Ind.

Students should arrange to get here very early in the session, as the accumulation of clinical material during summer, renders the first few weeks of the session especially rich in clinical instruction.

## TEXT BOOKS.

Anatomy.—Weisse, Gray, Gobrecht's Wilson.

Chemistry.—Attfield, Witthaus, Leffmann.

Physiology.—Foster, Flint, Dalton, Yeo.

Surgery.—Erichson, Ashurst, Agnew, Gross.

Practice.—Flint, Pepper's System, Roberts.

Obstetrics.—Hodge, Playfair, Cazeaux.

Materia Medica.—Ringer, H. C. Wood.

Genito-Urinary Diseases.—Acton, Curling.

Diseases of Women.—Thomas, Barnes, Sims.

Diseases of Children.—Condie, Smith.

Eye and Ear.	}	Diseases of the Eye.—Wells, Fox's Quiz-Compend.
		Diseases of the Ear.—Burnett, Roosa.

Students are requested to procure at least one of the text books recommended on each of the above subjects.

## MATRICULANTS.
